Welcome! Thanks for choosing NopWired Responsive Theme as your store theme. Please have a look at this document on how to install and setup NopWired Responsive Theme.

Installation

Download your theme at http://www.pronopcommerce.com/customer/orders, upload / FTP the "NopWired" folder into your nopCommerce "Themes" folder.

Next, login to your store's admin dashboard. Navigate to Configuration > Settings > General and Miscellaneous Settings, set NopWired as your desktop store theme.

Content Management

Language – Localization

Watch video tutorial below about configuring nopCommerce localization.

[Configuring localization strings in nopCommerce](#)

After you have plug the theme into your store, you may find some non-human-readable text strings in store front-end, for example "NopWired.WelcomeMessage.NewCustomer" in the header. These text strings are actually manageable (localizable) in nopCommerce. Now, what you would need to do is to give them meaningful values so that they are human-readable.

To change the value of each localizable strings, navigate to admin dashboard, Configuration > Languages. Click on "View string resources" link of your desired language. Then, add the following localization records into the table. If your store implements multiple languages, then you would need to repeat the task for each of the languages.

| Resource Name	Sample Value
NopWired.WelcomeMessage.ReturningCustomer	Hi, welcome to pronopCommerce!
NopWired.WelcomeMessage.NewCustomer	Join us now to enjoy $20 off discount!
NopWired.QuickDescription	Quick Description
NopWired.ShopBy	Shop By

Topics

Watch video tutorial below about nopCommerce topics.

[Setting Up Pro nopCommerce Theme](#)

There are a few new topic blocks applied in NopWired homepage in addition to the default nopCommerce topics. Navigate to admin dashboard, Configuration > Content Management > Topics (Pages), add the following new topic:

1. Promo1
2. Promo2
3. Promo3
4. Promo4
5. Brands

The sizing of images used in NopWired Demo Site is illustrated as above.

Logo

Name your logo image as "logo.png" and replace it in "*/Themes/NopWired/Content/images*" folder.

If you run your store on nopCommerce 3.80, please upload your logo image to Admin > Configurations > Settings > General Settings.

Pro NopCommerce Credit

If you downloaded this theme for free, we appreciate if you can play the game fair by not removing the credit in footer. If you would like to remove the credit, you can purchase a commercial license from http://www.pronopcommerce.com/NopWired-free-nopcommerce-responsive-theme

Lastly, thank you for choosing NopWired Responsive Theme.
